voice control

### Control with your voice

Compatible with Alexa and Google Home.  
Turn on/off the light, adjust the color or brightness via your voice

Alexa, turn on the kitchen light  
Ok Google, dim bedroom light

### Control the Wi-Fi LED Light no matter where you are

- Turn it on/off without leaving your bed or before going back home.
- Control the light on at night and let the light off during the day when you're away from your house on vacation or you are gone overnight which improve home security and save energy.

### Support Timing

The sleep timer will automatically turn off the light after the preset time has elapsed per your settings.

- You can set the bedtime for your children through the way of light off.
- You do not have to remember to turn off the light before you go to sleep.
- You also can set a wake-up time with your favorite color.

### Create Smart Lamp Group Easily

You can create groups on the APP to manage two or more smart lights. Synchronous control will be realized through smart light group. Such as, gradually dim them or change the color of them all simultaneously.

Turn on/off the kitchen, bedroom, living room and dinning room light at the same time.

### Colorful Lighting

The color temperature of the light is from 2700K to 6000K.  
More than 16 million colors for you to choose and all of them can be adjusted to suit your mood.

### Installation Free Diming

By just swiping your thumb
